

ELLIOT LUCKY

SOFTWARE & BLOCKCHAIN DEVELOPER

(elliottlucky509@gmail.com)
(github.com/codeBigInt)
(Based in Nigeria)

Experience

Co-Founder at [SwiftGigs](#) 2025 TO PRESENT

- Co-founded a service marketplace startup connecting skilled gig workers with clients across Nigeria.

Technical Founding Lead at [KnightShield Wallet](#) PRESENT

- Current technical founding lead of KnightShield, an installable PWA Midnight wallet (knightshieldedwallet.tech), building it with Matt Cobbert.
- Open-source codebase at github.com/Knight-Shield-Wallet/wallet-v2.

Co-Founder & Lead Midnight Blockchain Developer at [LucentLabs](#)
JAN 2025 TO PRESENT

- Co-founded LucentLabs and lead a team of 3 Midnight blockchain developers across privacy-preserving DeFi products: Statera, HydraStake, Midnight Launchpad, FundAGoal, and ckb-dex.
- Own architecture decisions, code review, and Compact smart contract implementation.

Smart Contract Developer (Intern) at Fluid Tokens
FEB 2025 TO PRESENT

- Built on-chain lending logic for a fully shielded lending protocol: positions, liquidity, borrowing, repayment.
- Reduced contract failure risk by 95% through on-chain testnet testing with a CLI DApp interface.

Lead Developer at [CQRE Studios](#) EARLIER

- Led backend engineering with Node.js and Express; drove SEO strategy for client sites including detopsyelectricalshops.com.
- Containerized services with Docker for lightweight, repeatable deployment and hosting.

Frontend Developer at HNG Internship (i11) JUN 2024 TO AUG 2024

- Finished top two frontend developer out of 24,234 applicants.
- Helped ship Remote Bingo, a real-time multiplayer game room, using REST APIs, WebSockets, and modern state management.
